PHILIPPE ROGUEDA APPOINTED AS VARYDOSE CTO

VaryDose is forging ahead with new development plans and appoints Dr Philippe Rogueda as Chief Technology Officer.

VaryDose, the fine powder dispensing specialist company from Cambridge UK appoints Dr Philippe Rogueda as Chief Technology Officer to support its expanding development plans.

Philippe brings with him many years' experience and expertise in the powder handling and pharmaceutical formulation industry. Philippe is an industry renowned product development specialist with extensive experience of formulation science and device technologies working within global blue chip organisations.

"VaryDose is an exciting and innovative filling technology that has the ability to change the filling paradigm that has existed up until now" says Philippe.

Philippe comes VaryDose as Chief Technology Officer (CTO) to join in its future progress in the Pharma and Healthcare space.

VaryDose: From Lab to Launch.

VaryDose is a technology company with a novel powder dispensing and filling solution for the pharmaceutical and healthcare industry. VaryDose's simple design scales seamlessly from laboratory dispensing through to production-line filling, saving significant cost and reducing time to market.
